

Now, we're trying to place the revival just in the best setting that we can. We do not, what we call, major on Divine healing, because Divine healing is a minor. And you cannot major on a minor; we know that.

So the great thing that we're after for any revival, is to bring lost souls to Christ first; revive the church back into a spiritual condition, to where it should be, close communion with God; bring fellowship among the churches, third; and fourth, pray for the sick.

That's our aim, our try, is sinners first, fellowship...with the churches, and a close walk with the church to God, and then pray for the sick.
