

Paul told things to a bunch of people in Thessalonica and in Berea. Those from Thessalonica stoned him and drug him outside of the city for dead. Those from Berea, as the Scripture says, were more noble, and they searched the Scriptures daily in case these things were so. [Acts 17]

That's all I ask you to do when you hear me bear witness of these events that I believe God did in my generation. Don't just write them off, search the Scriptures, look at history, see if there's some truth in it for you.

I'm not asking you to follow me. I'm asking you to let me be a witness to you that I believe God has truly visited this generation with a mighty prophet.
